Abstract

Though there is a busy schedule, Human beings started to learn things. An innovation in Technology helps all type of people to learn in energetic manners. Online mode is one of the great sources for learning. The most important updating will received within the particular time. The children could access YouTube and they watch songs and rhymes. College students, school students, even parents sparing time became less. They started to send the Assignment in the Google Classroom. The learners may watch the YouTube. After watching they are able to write assignment. Thus to the learners Online is a boon.

Keywords: ICT, Google Classroom, YouTube, e-books, Learning, Assignment, PPT, Exam.

Introduction

Learning is one of the important things for all human beings. Because of Macaulay, we learn English. Due to many inventions in technology, Human beings started to learn many things. They develop many talents. They started to save their time and they decide to spend time in many fields. Because of Internet and ICT tools students in all over the world learn things quickly. Teachers, Students, Parents, Tutors used many ICT tools for their education purposes.

ICT in Education

Information and Communication Technology, is includes information technology and Communication technology. Though ICT is a business tool, it helps vastly to the students. They could use some tools for LRSW in Language Learning. The digital tools are computers, laptops, desktops, data projector, software programs, printers, and scanners, mobile. ICT tools are available for assessment purpose too. Government of India also using ICT, for the educational improvement.

Advantages of ICT

To the Students it helps to increase their concentration. When they need, they could clear their doubts using these ICT tools. It also reduces unwanted human contact. Even non school going children are able to watch songs from YouTube. Teachers upload their videos in YouTube. Students from schools and colleges, even parents sparing time became less. They started to send the

Assignment in the Google Classroom. The learners may watch the YouTube. After watching they are able to write assignment.

Learners and YouTube

There are different age group learners. All type of sources is available in the YouTube. The primary school learners may listen the rhymes, alphabet pronunciations, name of the flowers, name of the fruits, name of the vegetables, name of the nation leaders, name of the scientists, name the districts etc., The elementary school learners may refer the video for their subject lessons. They could learn grammar parts, vocabularies, explanation of stories. The secondary school learners and teachers could get the reference video from YouTube. They can watch it whenever they needed. It also saves energy of the Teachers and parents. The higher Secondary school students refer many videos for their public examination. And also they could collect the TNPSC, NET, NEET, SLET, TRB video materials.

The Role of Google Classroom

As a teacher, the teacher can create a Google Classroom for every class. There they may send the text, questions, and answers in different formats. The learners also use the text whenever needed. They could use the different formats using their Internet facility. They are also able to submit the assignment in it. They can even submit their scanned exam papers. During COVID – 19, Google-Classroom plays a great role. They save papers by following the typed format assignments. Even they could get the corrected papers with the marks. This Google Classroom can be installed in mobile, Laptops, Computers.

PowerPoint Presentation (PPT)

MS Office plays a great role in every field in the world. Like MS Word, PPT is a source for teaching- learning field. Even in the smart class room PPT usages stands first. Through that the learner can observe the important points. They could get the main pictures, short notes, mind map, animations, videos, etc., It is by all Teachers to give good points to the learners. Many Lecturers are using it in a great way. Presentations are a good aid for teaching field. Altering the prepared materials for various reasons is available.

E-Books

An eBook is a non-editable, book that is converted to a digital format to be read on any digital device such as computer screens or mobile devices. E- Books are created through many advanced apps. Many Libraries are using the e-books. Through online many of the e-book owners are selling the e-books. Some are accessed freely. E-books apps are also available. Kindle books are nowadays popular. Many creators in every field are there. Many poetry, drama, short stories are published as an e-books. Learners, teachers and tutors, are also providing much type of e-books for secondary source.

Online Learning is a Boom

Online education gives many profits to the learners, tutors, app creators. Mainly Google give ways to all other improvements in the world level. Online- learning become boon because of the Google. Audible and Visual aids help the learners. Nowadays many universities from abroad conduct their classes through online Mode. There are different world level students. It is also called as e-learning and Distance learning. MOOCS, SMOCS, SPOCS, SSOCS are the popular online education Mode platforms. Nowadays because of Google many MOU are Signed. Learners are able to save their time. They are learning apart from their courses. By reading and observing the videos they are able to create many new things. Music, arts, app creations, medical transcriptions,

program learning, maths techniques, psychology, drawing, etc., could learn through online. Thus online learning is a boom.
